

JULY 1994

**IMPORT HEALTH REQUIREMENTS OF MEXICO
FOR CERVIDAE (CAPTIVE-RAISED) EXPORTED FROM THE UNITED STATES**

The animals must be accompanied by U.S. Origin Health Certificate issued by a veterinarian authorized by the U.S. Department of Agriculture (USDA) and endorsed by a Veterinary Services veterinarian. The certificate shall contain the name and address of both the consignor and the consignee, and individual identification of the animals to be exported. Additional information shall include:

CERTIFICATION STATEMENTS

1. No evidence of reportable diseases has been known to occur on the premises of origin during the 12 months prior to export.
2. The animals were examined and found to be clinically healthy and free of ectoparasites.

TESTING REQUIREMENTS

1. Tuberculosis: Single cervical test using ppd mammalian tuberculin

OTHER INFORMATION

1. All animals may be inspected by a Mexican veterinarian at a facility in the United States at one of the following border points: Brownsville, Texas; Laredo, Texas; Del Rio, Texas; Eagle Pass, Texas; El Paso, Texas; Presidio, Texas, Columbus, New Mexico; San Luis, Arizona; Nogales, Arizona; Calexico, California.
2. The U.S. origin health certificate must be typewritten. Handwritten certificates will be rejected by the Mexican Animal Health authorities.
3. For wild-caught cervidae, see document below.

MARCH 1996

IMPORT HEALTH REQUIREMENTS OF MEXICO
OR WILD-CAUGHT CERVIDAE EXPORTED FROM THE UNITED STATES

The animals must be accompanied by U.S. Origin Health Certificate issued by a veterinarian authorized by the U.S. Department of Agriculture (USDA) and endorsed by a Veterinary Services veterinarian. The certificate shall contain the name and address of both the consignor and the consignee, and individual identification of the animals to be exported. Additional information shall include:

CERTIFICATION STATEMENTS

1. The animals were treated with an approved acaricide at the time of capture or at embarkation.
A los animales se les aplicó un garrapaticida aprobado por el USDA por el método de pour-on en el momento de la captura y/o embarque.
2. The animals originate from zones where during the 6 months prior to exportation no notifiable diseases, including tuberculosis, have been reported to occur.
Los animales proceden de una zona en la que no se tiene evidencia de la presencia de enfermedades de notificación obligatoria, inclusive tuberculosis, durante los seis meses previos a la exportación.
3. The cervidae for export are wild-caught and not captive-raised.
Los cervidos a exportar fueron obtenidos mediante captura y no son producidos en cautiverio.
4. The cervidae were examined and found to be clinically healthy and free of ectoparasites.
Los cervidos fueron examinados y encontrados sanos y libres de ectoparásitos.
5. The wild-caught cervidae meet federal requirements for interstate movement.
Los cervidos están autorizados para movilizarse interestatalmente dentro del territorio de los Estados Unidos.
